Mobile Developer Team

ABOUT US

We are a small but extremely skilled, highly specialized group of React Native / Flutter developers , all with strong backgrounds in the open-source community, and we're here for your larger projects which require that next level of talent. Whether you need an app or looking to boost your team expertise in Javascript, we are ready to help!

OUR WORKS

IntelliCenter

React Native app, UI/UX design, Web design and development

Wherever you are, the new IntelliCenter(tm) Control System for Pool and Spa makes it easier and more intuitive than ever to control your pool. Use your familiar Android® mobile devices from anywhere in the world. IntelliCenter features new color touchscreen interfaces at the equipment pad as well as via an optional indoor control panel and/or optional wireless poolside remote. Its razor-sharp screen clarity and step-by-step instructions make operation a cinch. IntelliCenter also has enhanced voice command capabilities through platforms like Amazon Echo®. Paradise truly has never been more simple.

TRASTRA

React Native app

TransferRoom.com is the world's No. 1. online match maker for professional football clubs. Launched in 2017, it has facilitated more than 250 transfers of professional football players. TransferRoom is NOT charging any commissions or transaction fees. Clubs simply pay a monthly subscription fee for the access and can do as many transfers as possible without any extra charges, which can make the use of TransferRoom highly profitable.
